All at the Stade de Geneva Sunday afternoon, the entry is free! To mark their arrival, the new leaders of garnet club wanted to make this derby lémanique Challenge League a celebration of football and move at the same time the public in Geneva.

Meetings between these two clubs in the past have never left indifferent. If the derby between Servette and Lausanne today has the same flavor, we must remember a few memorable evenings, such as that decided the title of champion from Switzerland on June 2 1999. The Geneva had imposed the Pontaise 5-2 in a pouring rain. Gérard Castella, already he is celebrating his first Cup as a coach. More recently, on 19 August 2006 before 5125 spectators, Servettiens back a handicap of three goals to win 4-3 with two doubles and Esteban Vitkieviez signed.

The seizure of power Majid Pishyar preceded by the return of Castella should give new impetus to Servette FC. The era Vinas left a healthy club, but only succeeded for some more months to generate enthusiasm, lack of ambition. Servette had recovered very quickly in the depths of the rankings, a place that is not his. A qualification logic Cup in Switzerland, followed by a first championship victory in Wil, handed the club on the path to success. "We have also disputed two matches friendly helpful for confidence and morale of the team," said Gerard Castella. "The desire to break this bad is not present in the players. This does

not mean that we are completely healed. We must be more incisive in attack. However, the coach continued, several players gradually found their bearings and serenity. They are no longer afraid to receive the ball into the feet. "

Sunday is again Marks will be the last bulwark against servettien Lausanne. Gonzales is indeed chosen with the team from Switzerland M21 for the two European matches barrage against Spain. "This is not a concern, stresses Castella. Marks made a good match in Wil and I have confidence in him. There is a way that Gonzales is part of the group. For now, he has followed one training with Servette. "

The offer of free, a good idea? "Yes, Castella said. The leaders wanted to mark the change, but I hope that viewers will be especially pleased with the Servette they have seen, not only because the entry was free! "
